

# **Biak Lorikeet Project** ***Trichoglossus rosenbergii***

01.04.2019

## **needful Informations for the breeding book**

For the breeding book all informations can be good and helpful. Next I will name some Types of informations and their priority:

### **must-have-informations:**

- identitynummer of the bird (ring number)

### **very helpful informations:**

- sex of the bird
- parents and the generations before
- year of birth of the bird
- owner and/or breeder

### **nice-to-have informations:**

- date of birth (exact day or month)
- virustests with the results
- other informations around the birds

For the breeding book we can use nearly every informations. Sometimes you think a information is not helpful, but a few days later you look at exact this information.

Thanks to everyone who gives us informations.
